Have you ever participated in any initiative of the Autonomous Province of Trento-Emigration Office?

53 risposte

What do you think of a social network that connects Trentino people living abroad and Trentino people living in Trentino?

53 risposte

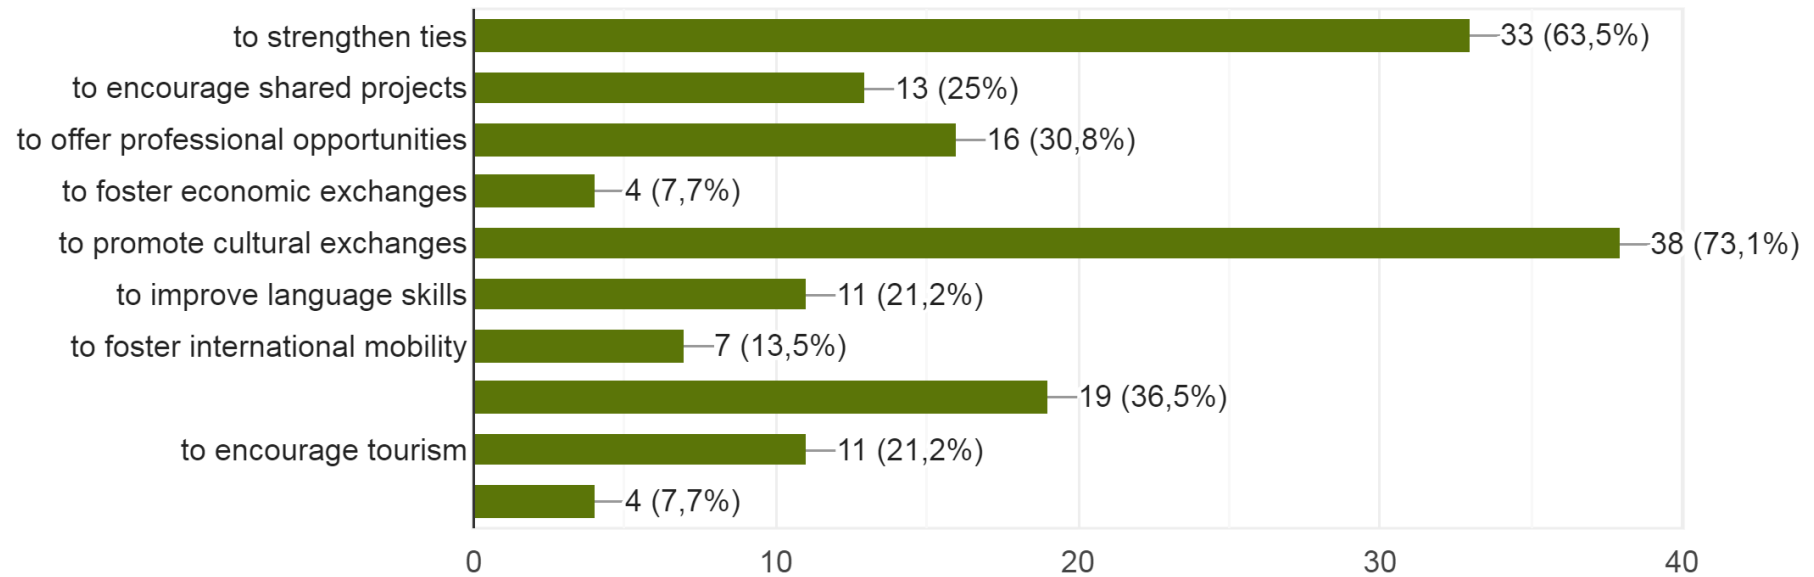

Could you explain why you find it useless?

1 risposta

Many 2nd and 3rd generation Australians are not interested. They don't speak Italian and have lost connection with Trentino. Immigrants to Australia generally assimilate very quickly (1-2 generations) and forget about the motherland.

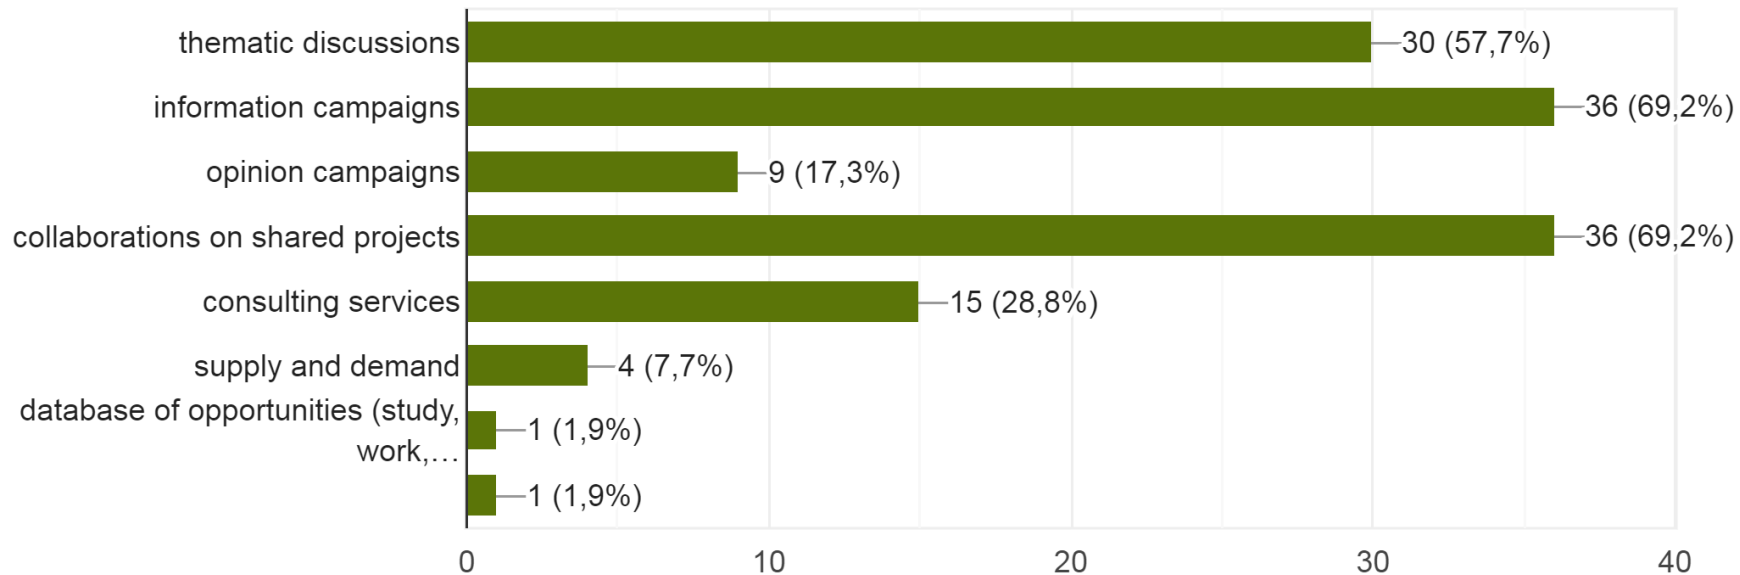

What purposes should it pursue?

52 risposte

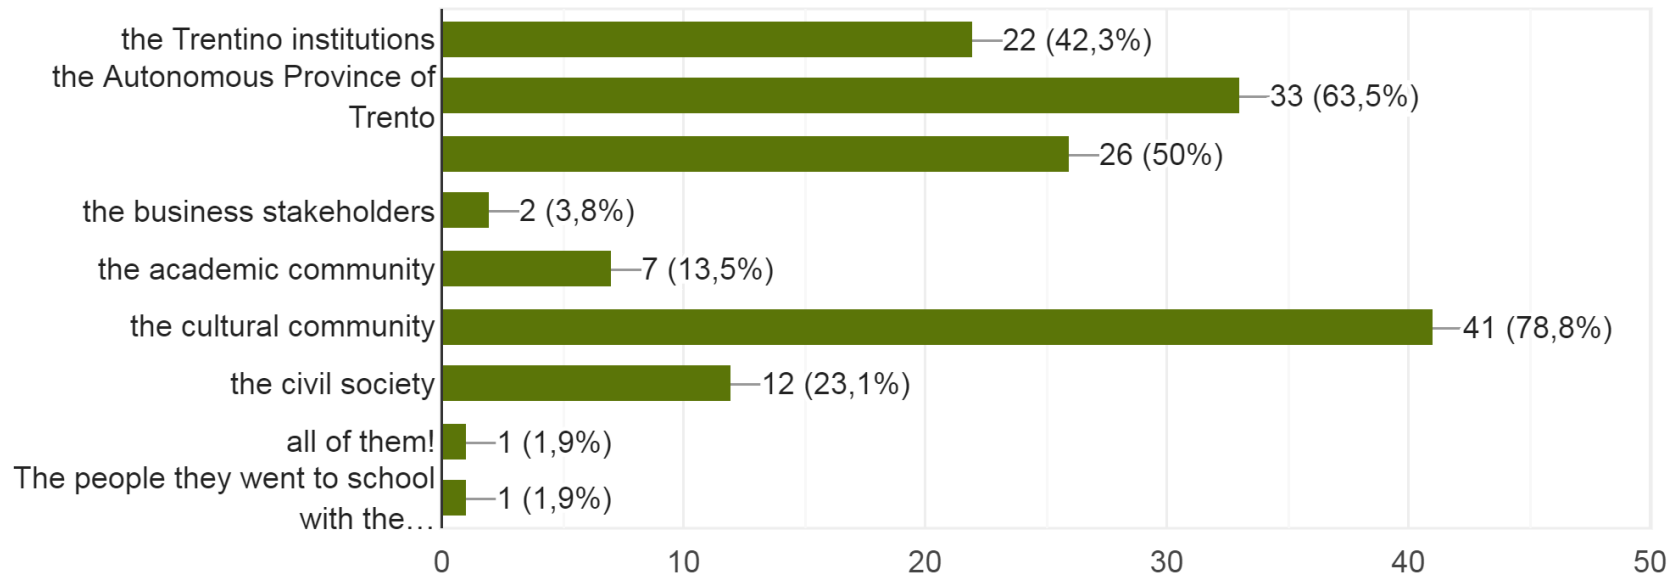

What features should this social network have?

52 risposte

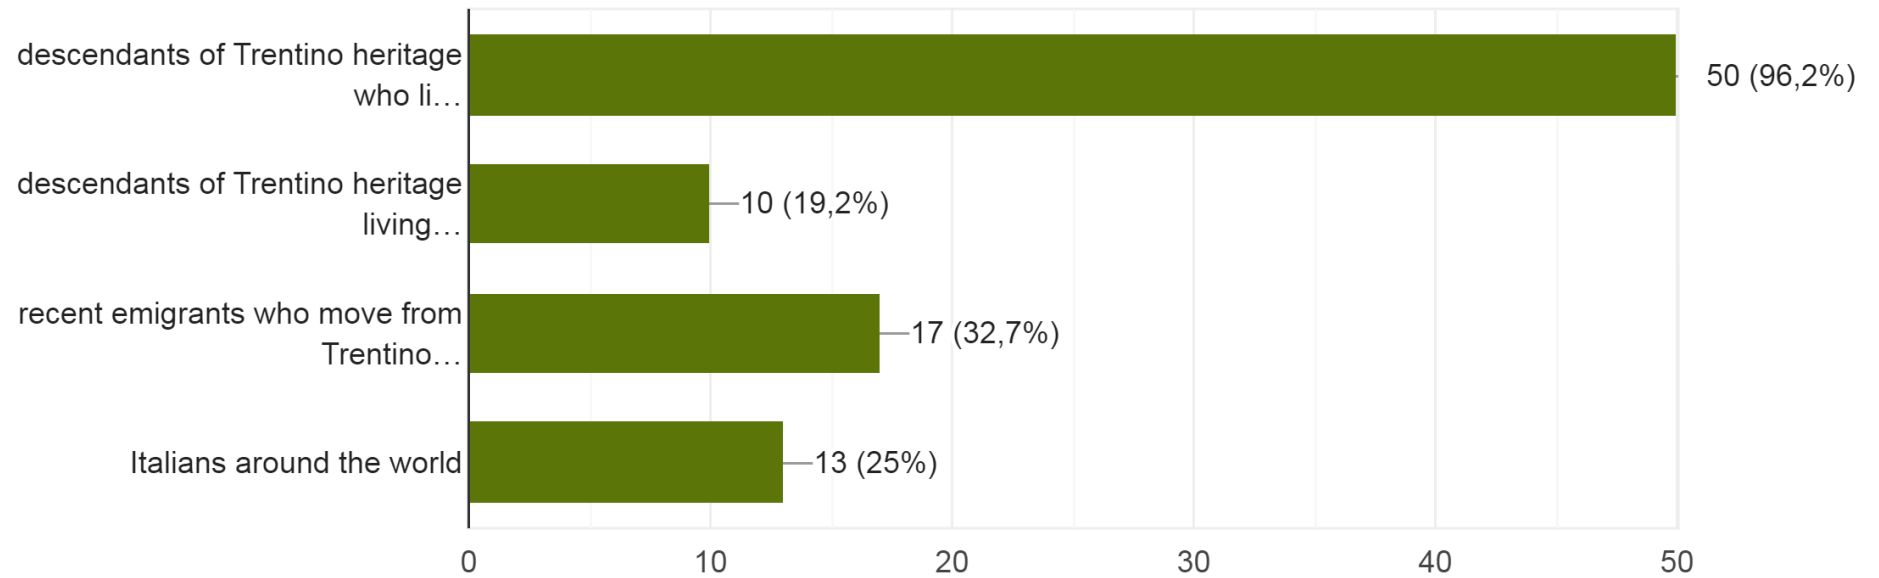

Who do you think is important for the Trentini people who live abroad to maintain ties with?

I'm available for volunteering with project.

THANK YOU FOR YOUR CONTINUED EFFORTS!!

This initiative sound great, i wish you much success. and look forward to following and learning more.

One of the best things I did in my life was go study in Trento. I wish I could have stayed longer.

I live in Australia with my family. We are happy to help/support any Trentini coming to Australia.

This should be both about culture, as well as education & business opportunities, but 50% each.

I appreciate that you are taking the time and effort for all of these wonderful initiatives.

Hire a social media marketer to run SEO ads to reach out to people who follow Trento communities online. You can target specific age people 18-40 who like something that has to do with Trento. SEO ads are a must on Instagram and Facebook if you are going to reach the younger generations.

I honestly feel like making a Facebook group would be easier than trying to re-invent a new tool.
